

League Engineering Services Quality Policy

League is committed to delivering project, incorporating value adding quality by fully understanding our contractual requirements and delivering outputs meeting or exceeding expectations.

Our reputation for delivering project relies on the enthusiasm and professional capabilities of our people who ensure that our projects utilise industry best practice combined with innovation and practical experience.

This policy is reinforced by our Codes of Conduct guiding our team on ethical behaviour to achieve the highest standards of performance and probity.

To realise our goal of quality excellence we are committed to:

- Developing and maintaining strong and effective professional relationships with all personnel associated with all our projects;
- Working collaboratively with our stakeholders and personnel.
- Building a strong culture of quality and business excellence based on openness, trust and respect;
- Developing the skills, knowledge and experience of all project participants to enable them to reach their full potential in understanding and delivering specified quality requirements.
- Making available sufficient competent resources to achieve specified and implied quality objectives; and
- Planning our operations effectively to “get it right first time” by eliminating the time, cost and reputational risks associated with non-conformity and simultaneously protecting the health and safety of all participants and stakeholders.

This Policy will be reviewed and updated annually and will evolve to meet the needs of the project.
